# About the Company

## Since 1967

**Wielkopolski Indyk was founded** by Alfred Glinkowski **in 1967**, who, having developed the company over the years, introduced his family to the secrets of producing the best quality poultry.

**The massive growth of the company** took place in the 1980s, when the founder's sons worked to expand. Today, **the family business is famous for the production of the highest quality turkey meat and cold cuts.**

**Wielkopolski Indyk monitors the entire production process**, which begins by growing top-class cereals and producing the best fodder. This is why we can be sure that **our poultry** has the right diet, **and that the flocks are healthy.**

The result is top  
-quality turkey meat  
and cold cuts.
